

BASE-LINE CLEAN-UP SHEETS

Premier Quality Clean-up Material

Clean-up sheets from Base-Line® are the environmentally safer way to clean a press. Ink belongs on paper, not on people and not as hazardous waste in messy clean-up attachments. Base-Line clean-up sheets provide a fast means of thoroughly cleaning ink rollers and are disposable as printed matter, saving the cost of hazardous waste disposal.

Press Clean-up Made Simple

Simply mount the clean-up sheet, start the press, apply roller wash, engage the ink form rollers and allow the clean-up sheet to do the work.

Wide Selection of Sizes

Available in more than 50 different sizes or we can supply made-to-order sizes on request; available in a pinbar, slotted or straight-edge configuration to meet specific press requirements. These sheets are cut to exacting press specifications to insure a perfect fit on the press cylinder.

Specifications

Weight 166

Caliper 16

Brightness 81

Tensile Strength 62 grain/33 cross grain ft. lbs.

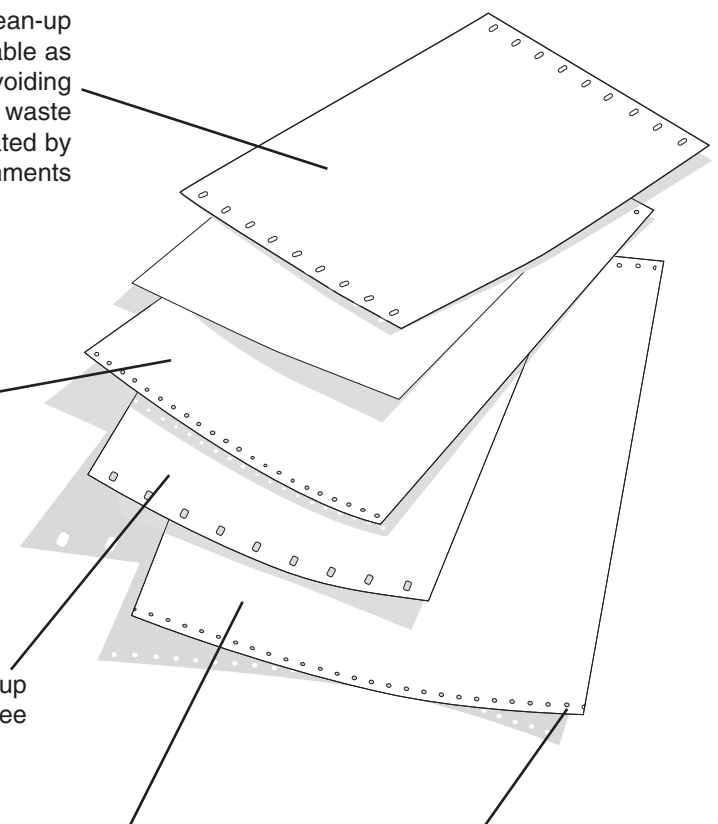

Base-Line clean-up sheets are disposable as printed matter, avoiding the hazardous waste that is generated by clean-up attachments

These sheets provide a fast and easy means of thoroughly cleaning ink rollers and the press, reducing valuable downtime and providing the ultimate in pressroom convenience

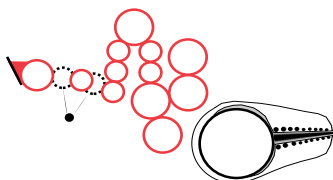

Base-Line clean-up sheets are lint-free

Quality base stock ensures the needed absorbency and wet strength for use on both sides, providing a savings of as much as 50% over competitive brands

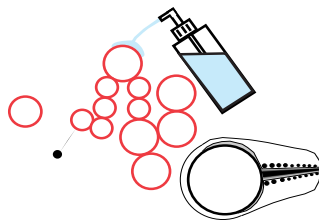

Available for a variety of presses, with a pinbar, slotted or straight-edge configuration

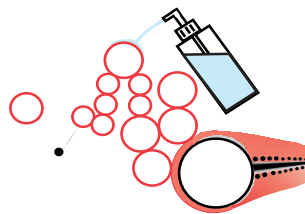

Ink Roller Cleaning Process

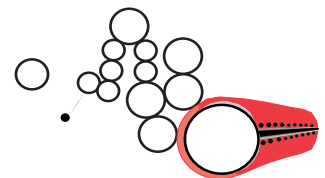

Mount the clean-up sheet onto the plate cylinder

Start the press and apply roller wash to the ink rollers

Engage the ink rollers and allow the clean-up sheet to absorb the press wash and ink

Remove the used clean-up sheet and repeat with new clean-up sheets until the rollers are sufficiently cleaned
