

NON-WOVEN CLEANING PRODUCTS

Cotton Litho Pads and Wipes

Base-Line® Cotton Litho Pads and Wipes are made with 100% cotton with no chemical additive. They are extremely strong and absorbent, yet so soft they will not scratch the most delicate surfaces. They will not break down in water or solvents, making them ideal for camera rooms, stripping, platemaking and pressroom use.

Blue Shop Cloths

Blue Shop Cloths are great for prepress, pressroom and other industrial cleaning applications. Strong in both directions, they will not rip nor tear. They are soft, absorbent and conveniently disposable.

Durable Shop Cloths

This material is designed specifically as a low-lint shop cloth for use in heavy-duty extended use applications. It is durable, absorbent, machine-washable and solvent-compatible.

Delicate Task Paper Wipes in a Dispenser Box

These wipes for delicate or critical tasks are low linting and low contaminant. Their anti-static property minimizes electrostatic discharge to help protect against damage to sensitive electronic parts. The wipe is of a single-ply, soft, non-abrasive pure-fiber paper and offers high absorbency and streak-free cleaning for compatibility with many hard polycarbonate and glass surfaces.

Screen and Scanner Wipes

Screen and Scanner Wipes are anti-static and will remove dust without scratching or leaving residue. They are ultra-soft and highly absorbent: there is nothing better for cleaning computer screens, film, optics, scanner beds and drums, and safety or prescription eyewear.

Cheesecloth

Base-Line Cheesecloth is a four-ply, 100% cotton material that is extremely strong and absorbent. It has little surface fuzz, making it ideal for buffing plates and for many other graphic arts applications.
