

## PLATE SAV-UR

### *Cleaner, Conditioner and Scratch Remover for Metal Plates*

Plate Sav-Ur is a one-step cleaner, conditioner and scratch remover for most metal plates. When used as directed, Plate Sav-Ur thoroughly cleans the plate surface and makes plates accept ink better. Plate Sav-Ur is an excellent starter of stored metal plates and can be used as a deglazer in the dampening system.

#### **Benefits**

- Instantly removes scratches, gum streaks, oxidation
- Desensitizes plates for high-quality runs
- Excellent starter of stored plates
- Non-flammable and biodegradable

#### **VOC**

.07 Lbs. per gallon/84 grams per liter

#### **Directions**

**Directions for Use on Offset Plates** Moisten a cotton pad with Plate Sav-Ur and apply it to the entire plate without allowing Plate Sav-Ur to dry on the plate. Rinse the plate off with a fountain solution or water. Repeat as necessary.

**Directions for Deglazing the Dampening System** Once a week, place .5 oz./15 ml of Plate Sav-Ur in the dampening system. Run the press for about 10 minutes and rinse with hot water. Follow up with a blanket or roller wash.
