

NON-PILING ADDITIVE

Water Fountain Additive that Eliminates Paper Piling

Non-Piling Additive is a unique water fountain additive that eliminates paper piling on the blanket and the transfer of paper coating into the ink train. It also enhances the wetting properties of the fountain solution which means that water can be reduced, colors are brighter and the ink dries faster.

Benefits

- Eliminates paper piling on the blanket
- Helps produce brighter colors
- Permits faster ink drying
- Lubricates the blanket
- Reduces the frequency of blanket wash-ups
- Reduces paper stock usage

VOC

Does not contain VOC

Directions

Add 2 oz. per gallon/16 ml per liter to the working fountain solution.

Packaging

Bottle 1 gallon/3.8 liter (4 per case)

Pail 5 gallon/19 liters

Drum 55 gallon/208 liters
