

# ROLLER CLEANER AND CONDITIONER

*When service counts, count on Grafitec*

## ***The easy-to-use roller cleaner and conditioner for continuous dampening systems***

Maticlean® not only cleans and conditions fountain pick-up and transfer rollers, but it desensitizes them. No more worrying about ink migration and other contaminants. Using Maticlean daily leaves a hydrophilic coating which results in an even surface for proper solution transfer and even printing of screens and solids.

### **Benefits**

- Ensures even water supply to the plate surface
- Helps keep durometer of dampening rollers constant
- Quickly and easily removes ink build-up
- Extends roller life
- Stops glazing and stripping
- Makes roller surface more water-receptive
- Can be used on chrome, rubber, nylon, ceramic and all other metering rollers
- Works with Dahlgren, Alcolor, MiehleMatic and Crestline systems

### **Packaging**

32 ounce/946 mL bottles (6 per case)

1 gallon/3.8 L bottles (4 per case)
