

GOLD MIRACLE

Starter, Cleaner and Conditioner for Silver-Based and Laser Plates

Gold Miracle is an amazing product that cleans and conditions plates so that printing looks better. It can be used with any silver-based plate, as well as laser plates such as Omega, Xanté, Pronto, Hurst SmartPlate™, Technova and Kimoto E2.

Benefits

- Eliminates toning, scumming, scratches and fingerprints
- Sharpens halftones and fine lines
- Can be used on analog, digital, polyester or paper plates
- Gives longer, cleaner runs
- Nonflammable and biodegradable

VOC

1.02 Lbs. per gallon/121.5 grams per liter

Directions

Apply Gold Miracle with a cotton pad to the plate and rub lightly to remove light scratches, toning and scumming. If fine lines or halftones thicken or fill in, stop the press and clean with Gold Miracle. Wipe the plate with a cotton pad moistened with fountain solution after applying Gold Miracle.
