

POLYESTER 2 SIDED LASER PLATES

This two sided polyester laser plate provides a high quality and affordable computer-to-plate solution.

Eliminate Costly Equipment

Our laser plate incorporates an award-winning technology that allows printers to image plates using only a laser printer with no additional processing required. These plates eliminate the need for camera, imagesetter, platemaker, processor and darkroom chemistry.

Provide Quality Results

Best of all, the image quality and durability of our laser plates take the worry and complication out of short-run work. Plates will hold a 1200 dpi image for a 120 lpi screen and will print in excess of 10,000 impressions. This makes our plates one of the most affordable, cost-saving devices available to small- and medium-sized printers.

Advantages of Laser Plates

- Eliminate the need for costly processing equipment and increase prepress output
- Require no chemical processing and work with almost all oil, acrylic, rubber-based and soy-based inks
- Provide excellent results for letterhead, business cards and literature that contain spot color, screens and halftones
- Double-sided and durable construction that resists scratching
- Reduce or eliminate hazardous waste disposal and provide a safer environment for employees
- Provide run lengths in excess of 10,000 impressions under recommended conditions
- Available in a variety of pre-cut sizes in packages of 100 plates
