

EVS-2540 COLOR VIEWING STATION

Model EVS-2540 provides a 25x40"/64x102cm viewing area and provides all the outstanding features of a full-sized EVS, accommodating sheets up to an A1 format in a small area.

Versatile Work Station

Ideal for professionals involved in the inspection of color prints, proofs and transparencies, and for press applications.

Graphiclite 100 Lamps

Every GTI® color viewing system features the Graphiclite® 100 color viewing lamp. To ensure optimum viewing conditions, these lamps are manufac-

tured with a unique blend of fluorescent phosphors. Unequaled by any other 5000 Kelvin lamp in the industry, the Graphiclite 100 produces a true full-spectrum white light which renders colors with the highest degree of accuracy and efficiency. In GTI viewers, the Graphiclite 100 color viewing lamp produces an actual system CRI approaching 95.

LiteGuard II

A critical quality control monitor, LiteGuard II® is a backlit liquid crystal display of lamp hours used and lamp hours remaining on the daylight source. It also displays warm-up time and hours remaining until recommended relamping.

ISO 3664:2000

This highly technical set of specifications enables lighting manufacturers to design, test and certify color viewing systems. The standard specifies a set of five conditions which must all be present in order to assure the benefits of the standard for the Graphics and Photographic Industries. The EVS-2540 meets these five conditions, which include:

- Color quality
- Light intensity
- Evenness
- Surround
- Geometry

Ordering Guide

To assist you in selecting the appropriate EVS-2540 unit for your application, we have provided below an easy-to-use ordering guide. Units are shown with a variety of options such as stands, sidewalls and storage drawers. They are also available with GLX transparency viewers in a selection of formats. If you have other specific requirements, we would be pleased to accommodate them.

Characteristics

- Elegant design
- Compliance with D50 industry standard for lighting and viewing conditions, ISO 3664:2000
- Uniform illumination
- Graphiclite 100 color viewing lamps
- Munsell N8/grey surround
- High-efficiency reflectors
- Neutral diffusers that will not yellow
- Shipped disassembled to reduce freight charges

EVS-2540/FS with 2F-2540

EVS-2540/FS includes floor stand with adjustable height

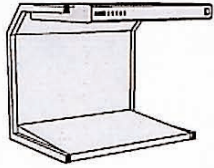

EVS-2540 with 1F-2540, FD-2540, SW-2540, GLX-10 and KT-10X/2540

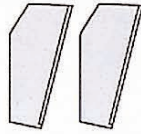

Choose one of the standard package options or create your own.
